Combine technical performance with a perfect, coloured gloss, satin, wet or matt finish for all your customisations.

Suitable for vehicle full wraps, decoration of objects, furniture restoration, etc.
Capable of meeting all your technical expectations, both during and after application, SKINTAC SKINTAC **HX20000** is available in more than 110 colours. There is nothing better to bring your creative vision to life!

SWATCHBOOKS / COLOUR CARDS

Order our swatchbooks and colour cards by writing to export@hexisgroup.com or contact your local distributor.

HEXIS ADVICE

To install films with a gloss finish, we recommend MagicSpray.

To clean and maintain SKINTAC gloss films, we recommend our SHAGFINISH kit.

To enhance and protect the appearance of your HEXIS film, be sure to use NANO SERUM BY HEXIS.

- Permanent reinforced solvent-based acrylic adhesive
- Available in 1230 mm x 10 m (other retail options are possible, depending on stock availability)

2D

MEDIUM TERM

PHOTOLUMINESCENT FILM BRANDING & SIGNAGE

LINER KRAFT

LUMISAFE – Photoluminescent adhesive film – Class C according to ISO 17398

This photoluminescent adhesive film is designed for the creation of safety signage that remains visible even in complete darkness. After exposure to a light source, LUMISAFE emits a long-lasting light that enables the identification of escape routes, emergency exits, and safety equipment. Easy to apply on many surfaces, it provides a solution compliant with regulatory requirements.

HXSO / HXSOM

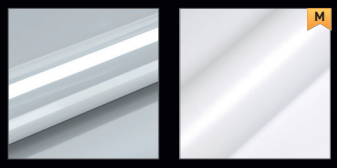
THE ESSENCE OF PROTECTION, MADE EASY.

- Thickness: 190 µm
- PET liner
- Solvent-based acrylic adhesive
- Gloss and mat finish
- Properties: self-healing when exposed to a heat source and water-repellent
- Wet application
- Surface protection film
- Durability: up to 7 years

Preserve the shine of your car's bodywork every day with our new **HXSO** protective film.

The ppf protection with everything you'd expect from a premium product

It combines an affordable price with uncompromising protection.



HXSO HXSOM

RESISTANT

Designed to withstand outdoor damage such as stone chips, insects, door knocks and car wash brushes.

SELF-HEALING

The **HXSO** film is capable of absorbing and removing micro-scratches when exposed to a heat source.

WATER-REPELLENT

With its water-repellent properties, contaminants and dirt will not stick as easily, making maintenance and cleaning easier.

Once applied, the film is invisible and effectively protects the most exposed areas of the vehicle whilst preserving the shine of the paintwork or a full wrap.
