STARTER PRICE

EASY TO USE

**Customise 3D Objects**

- ▶ Print vibrant, detailed graphics and text directly on a vast array of 3D objects up to 102 mm thick.
- ▶ Print directly on a wide variety of materials, including plastics, paper, leather, and wood – even glass and metal with the onboard primer ink.
- ▶ Simple operation and included output and design software makes product customisation easy – even for those with no prior print experience.

**High Print Quality**

- ▶ Advanced UV printing technology, including a high-definition print head, for stunning graphics and detailed text.
- ▶ ECO-UV 5 inks produce vibrant graphics and unique effects while also being GREENGUARD Gold certified.
- ▶ Clear ink produces premium gloss and matte finishes that look amazingly lifelike.

**Affordable, Safe, and Reliable**

- ▶ Priced to suit the budgets of start-ups, home businesses, and smaller retail operations.
- ▶ Built-in fume extractor ensures optimum safety by filtering out fumes.
- ▶ Legendary Roland DG reliability, low maintenance, and world-class customer support.

## Additional Features

- + Compact design fits easily on your desktop – ideal for small home offices, retail shops, and maker spaces.
- + Included VersaWorks 7 professional output software and FlexiDesigner VersaSTUDIO Edition design software make design, operation, and production easier than ever.
- + Optional rotary accessory makes it possible to print fully around smaller cylindrical and curved objects, such as bottles, jars, and pens.
- + Access to the Roland DG Connect app provides you with a detailed understanding of your printer while helping to keep your devices running at optimum performance.
