

BODYFENCE
P A I N T P R O T E C T I O N F I L M

WHY CHOOSE A **PROTECTION FILM?**

On the road, there are many factors that can cause damage to the appearance and value of your vehicle.

Because of the shock-absorbing properties, the self-healing properties, and the latest-generation hydrophobic properties, the films in the **BODYFENCE** series are the ideal protection solution.

Available in a wide range of finishes, **BODYFENCE** is the result of **35 years of experience** in the development of self-adhesive films.

FOREVER YOUNG

THE ADVANTAGES OF THE **BODYFENCE RANGE**

SELF HEALING

Scratches appear on the paint when using automatic car washes with rollers or brushes, when rubbing against shrubs or tree branches, when the vehicle is used regularly, or in the event of vandalism.

With minor to medium scratches on the film, **BODYFENCE** has the ability to self-heal and regenerate itself with the heat of the sun or with hot water.

ANTI CHIPPING

Whatever the season, the roads are sometimes loaded with debris that can become projectiles and damage the bodywork and paint of your vehicle.

BODYFENCE films can withstand these impacts thanks to their shock-absorbing technology. Give your vehicle the protection it truly deserves.

SELF CLEANING

Our **BODYFENCE** paint protection series of products are all formulated with a hydrophobic top-coated layer which makes the maintenance of cleaning much easier and less frequent.

This hydrophobic layer also maintains the high-gloss shine or deep matte or satin finishes — as intended.

ULTRA CLEAR

The **BODYFENCE** paint protection films are optically clear.

Depending on the product chosen, this will enhance the look of your paint into a much glossier, true matte, or deep satin finish — while giving you the ultimate protection.

Before any use, please check our technical documentation available on www.bodyfence.net and/or contact the **HEXIS** assistance center.

BODYKIT

PROTECTING YOUR VEHICLE
HAS NEVER BEEN SO EASY!

| The package |

« **HEXIS** create the most effective solution to protect
a vehicle from external damages.

BODYKIT are **pre-cut kits** that fit precisely on the bodywork. »

MANAGE YOUR BUDGET

- 1 vehicle = 1 kit
- We will produce
the **BODYKIT** for you

*You only buy as much material
as you need for that specific project.*

BOOST YOUR PRODUCTIVITY

- The installation of the **BODYKIT**
is quick and straightforward
- Increase overall productivity
and reduce installation time by 25%

You will save time on every job.

IMPROVE YOUR CUSTOMER SATISFACTION RATINGS

- The **BODYKIT** fits perfectly
to the different shapes
of the bodywork

*The final result is guaranteed
(without flaws) and always consistent.*

STAY CONFIDENT

- Your **BODYKIT**
is ready for installation

*No manual measurements,
no wasted material,
and no cutting on the bodywork.*

BODYFENCE CORNER

AN INNOVATIVE CONCEPT

BODYFENCE CORNER

is a workshop designed specifically for the application of paint protection film.

WHAT ARE THE BENEFITS OF A BODYFENCE CORNER?

BODYFENCE CORNER is not just a name, it's an entire work philosophy, supported by professionals who will provide you with the necessary tools for your shop.

- Discounts on materials and accessories
- Listing on our website
- Communication tools reserved for the network
- Access to a special catalogue
- Free further training
- Featured on social networks
- Support for trade fairs and events

PAINT PROTECTION FILM

HOW DO I OPEN A BODYFENCE CORNER?

.01 FOLLOW THE TRAINING PROGRAMME

You must have attended at least one **BODYFENCE** training session.

.02 GET CERTIFIED

Once training is over, apply for certification online. The purpose of the certification is to validate your technical knowledge and skills.

.03 COMPLY WITH THE CRITERIA FOR OPENING

Finally, to open a **BODYFENCE CORNER**, you must:

- Comply with the graphics charter
- Apply the specifications
- Master the application techniques
